You can talk me down so well  
It's interesting, I do all the talking now  
You can walk me down to an inconsistent side  
And wave goodbye

I was meant to follow you  
Like all star-crossed lovers do

Cause I would have known your face in the crowd  
From across the street  
Bustling  
A one-second glance  
You would have been my only muse  
Safe from the storm  
Stillborn

Speaking soft  
Curl emotions with your hair  
From a distant stare  
You calm me down so well  
I know you don't care about me

I was meant to follow you  
Across the continents to speak to you  
Like creatures in the seven seas  
These are my silent cries

Cause I would have known your face in the crowd  
From across the street  
Bustling  
A one-second glance  
You would have been my only muse  
Stillborn

Tie me down to your sinking ship  
And swept me home to the deeper bed  
Please tangle me up in the sweet trapeze of love, love,  
love

Your face in the crowd  
From across the street

Bustling  
A one-second glance  
You would have been my only muse  
Stillborn

Your face in the crowd  
From across the street  
Bustling  
A one-second glance  
You would have been my only muse  
Safe from the storm  
Stillborn
