On the outside looking in
Where you going? Where you been?
Au Naturel I adore you
On a cloud of mystery
You're the angel fantasy
Au Naturel I adore you

CHORUS:

Au Naturel
You take the pain
And leave me with scars to remember you
Au Naturel
You've got me by the heart
And you won't let go of me
Au Naturel

See the moonlight in your eyes
Behold the beauty, there's no disguise
Au Naturel I adore you
Au Naturel

CHORUS

On the outside looking in
How ya doing? How ya been?
Au Naturel I adore you
Au Naturel I adore you
