When we start to rock - when we start to roll All the cats  
want to bop and stroll they call for Hot Rock, yeah, yeah  
they call for Hot Rock, Baby, Baby Call for Hot Rock,  
Baby, Baby Played by a crazy band

I got women to the left, women to the right Gotta see  
you all next Saturday night and call for Hot Rock

Solo Guitar

Some go for guitar, some go for bass  
But just like me all dig a crazy race we call it

Sitting home drinking, getting drunk alone You better  
quit weeping, call your mates on the phone. Call for
