I changed my style for a while just to rock at the
dancing hall I changed by style for a while just to rock
at the dancing hall Because tonight I must be boppin'
or I can't Rock 'n' Roll no more

Ev'ry day at night when the sun's going down I'm
clickin' like a pistol when we gather around They all
toss in a dime then my engine turns hot and we're
speeding down to the wildest record hop

changed my style for a while just to rock at the dancing
hall I changed by style for a while just to rock at the
dancing hall Because tonight I must be boppin'
or I can't Rock 'n' Roll no more

The doors open at eight and we're stumbling in The
records start spinning like a shotgun din I got the
cutest gal kissing me real tight And if you dare to touch
her I start fighting all night

changed my style for a while just to rock at the dancing
hall I changed by style for a while just to rock at the
dancing hall Because tonight I must be boppin'
or I can't Rock 'n' Roll no more

Solo Guitar

The doors open at eight and we're stumbling in The
records start spinning like a shotgun din I got the
cutest gal kissing me real tight And if you dare to touch
her I start fighting all night

changed my style for a while just to rock at the dancing
hall I changed by style for a while just to rock at the
dancing hall Because tonight I must be boppin'
or I can't Rock 'n' Roll no more
