"Rockabilly Pump"

Visit "[Rockabilly Pump](#)" on MotoLyrics.com

When I get up in the morning at four
I drink a cup of coffee then I open the door I make all
the pumps and nozzles ready to go Soon the first truck
stops, flow, gas, flow

At the Rockabilly pump
At the Rockabilly pump
At the Rockbailly pump
That's where they all stop

At 9 the mailman comes in and fills up
Even bank clerks fill their tanks to the top The major
calls in for a quick oil change But I'm still busy fixing
Melody's flange At the Rockabilly pumpâ€¦!

And when the lights turn low I am ready to go Hard
days' day work makes me put on a show They play my
music at the city's record hop Just outside at the
Premium pump At the Rockabilly pumpâ€¦!
