You sure have heard about this girl
She smiles from the hoardings in the whole wide world
Her name's Shauna Her name's Shauna She's the
queen of the queens, holy ceasar of Mulholland Drive

You' ll never meet her in a burger place Fried, red
lobster puts a smile on her face That's Shauna

Your mighty, big love's just one call away her mobile
rings hot all over L.A.
That's Shauna

Her dress is expensive, but her business cheap A
house in the hills is where movie stars meet That's
Shauna
