#### INTRODUCTION:

"There's something I should tell you & Share with you".  
"Couldn't say it from the conversation's",  
"But I hope you get it",  
"While I sing it to you".  
"Like You Said: \*Sharing is Caring\*".

#### VERSE 1:

I followed you,  
You followed me back,  
I enjoyed the conversation's  
That we had.  
This is the first ever time,  
We had a chat.  
Now lets both keep a promise,  
In our heart.  
I really loved the way,  
You kept me smiling.  
This is a simple heartbeat,  
Like the sun is shining.  
All Day n' Night,  
I was waiting for your text.  
Come On Girl,  
This is not a true *"true"* test.  
After our Final text,  
You never texted back,  
Thought the convo ended here,  
But the heart doesn't stop here.  
Our convo can't be dead,  
We gotta' let the convo go on,  
& make it unstoppable,  
I think your actually gone.

#### CHORUS: (2x)

"First Time We" met online,  
"Girl I Know" that you want to,  
"Go Away" how could you,  
"Go Away"?

("You have forgotten me all of a sudden,")  
("I can't believe this is true.")

VERSE 2:

The first time we met,  
We cannot be strangers,  
On that day that we met,  
Both didn't act like strangers.  
We both stood happy,  
Talking like we're friends,  
Talking like we're actually best friends.  
Never thought our convo would end here,  
So does that mean our heart will die here?  
Girl, I actually \*liked you\*,  
Fell in \*Love with You\*,  
I'll be soo happy,  
To call you ma' BabyBoo. (x)  
"If the convo was going on & on",  
"Maybe one day, \*I'd be with you\* & never gone".  
"I know it's too early",  
"writing this song",  
"I know your thinking",  
"What the hell is wrong with this boy?"  
I don't care what your thinking right now?  
Cause I'm saying the truth,  
I want you to understand right now.  
"Hope you understand".  
"That is" - \*Me 2 U". (x)

CHORUS: (2x)

"First Time We" met online,  
"Girl I Know" that you want to,  
"Go Away" how could you,  
"Go Away"?

("First Time We Met.")

("It's all Gone...")

("What's your \*Heart\* saying about me?")

("Bet it doesn't want me anymore does it?")

(2x)

After our Final text,  
You never texted back,  
Thought the convo ended here,  
But the heart doesn't stop here.

CHORUS: (2x)

"First Time We" met online,  
"Girl I Know" that you want to,  
"Go Away" how could you,  
"Go Away"?
