I'm not your boyfriend, I'm just a lollipop
Just use your finger to make the bleeding stop
You know the stories in gossip magazines
You know those pictures of people making scenes.

All the girls all the boys go
All the girls all the boys go boots
All the girls all the boys go
All the girls all the boys go boots

I know your boyfriend, just make my cherry pop
Just use your finger baby and still the bleeding don't
stop
You love the stories in gossip magazines
You love those pictures of people making scenes
You wanna stay so close
Just like a robbing leach
Just use your head hit
I use a ???

All the girls all the boys go
All the girls all the boys go boots
All the girls all the boys go
All the girls all the boys go boots

This redneck noise got some cool to it baby

All the girls all the boys go
All the girls all the boys go boots
All the girls all the boys go
All the girls all the boys go boots

Their bodies, your bodies, their bodies, your bodies
Their bodies, your bodies, their bodies, your bodies
