I'm never alone, I look at my phone  
When I call you up, you're never at home

I love you all the thyme

I'm fueled up and high, I'm out with the guys  
A smile on my face, no reason to cry

I love you all the thyme

I can tell by that look in your eye  
You're looking and all you see is another guy  
I can tell you'll take your love away

I can tell by that look in your eye  
You're looking and all you see is another guy  
I would beg you if I thought it would make you stay

It's dark when it's night, so turn on the lights  
Make everything clear, let's check out the sights

I love you all the thyme

I'm fueled up and high, I'm out with the guys  
A smile on my face, no reason to cry

I love you all the thyme

I can tell by that look in your eye  
You're looking and all you see is another guy  
I would beg you if I thought it would make you stay

I'm fueled up and high, I'm out with the guys  
A smile on my face, no reason to cry

I love you all the thyme

I can tell by that look in your eye  
You're looking and all you see is another guy  
I would beg you if I thought it would make you stay

I would beg if I thought it would make you stay  
I would beg if I thought it would make you stay
