You know I love watching you,
As you come and as you go
I love the way you move around
You're beautiful,
just like the star of a picture show
And I can see the pain you hide,
The way your face gets twisted,
Like you was on a scary ride
And I know that the reason you hurt is me

Let me take you where no fun ever happens
I'm just no fun
And I know trust doesn't matter,
When it's gone

I know you always follow through
And that you take good care of me
And you never break your word,
When you make it your heart stays true
And it's plain to see
Now you know that I'm telling lies, girl
Your heart's broken and your head's in a whirl
I hope it's in your heart to be forgiving me

Let me take you where no fun ever happens
I'm just no fun
And I know trust doesn't matter,
When it's gone

Let me take you where no fun ever happens
I'm just no fun
And I know trust doesn't matter,
When it's gone
