"Why Did You Break My Heart"

Wake up early in the morning
I feel that emptiness inside
You just left without a warning
I wish you could see the tears I cried

How could you do this to me

Chorus
Back on my own feel so alone
Why did you break my heart
I wanna know baby
No one to hold the lights so cold
Why did you break my heart
I wanna know

Wish I had someone to talk to
But I never had too many friends
All the pain I have to go through
Feels just like a pain that never ends

Chorus

Why you did what you did to me
Why you never returned a plea?
Why it couldn't be you and me?

Chorus
