Time, it's changing me  
It's hard to see who I am  
Touched, I'm touched by  
Many things  
So many things I don't  
Understand

But seasons pass and I discover  
Above all this there's another  
Helping me to hold on to what  
Is timeless

## CHORUS

So the autumn can color me gold  
And the winter can dress me  
In snow  
But it's You I see,  
The timeless part of me  
In the springtime I'm young  
Once again  
In the summer I dance on  
The wind  
But it's You I see,  
The timeless part of me

Change, whether it's good or bad  
You know I'm glad You're in  
Control

Oh Lord, if I don't understand  
I know Your hand will shield my soul  
Seasons pass and I discover  
Above all this there's another  
Helping me to hold on to what is timeless

## CHORUS
