Snubbed at birth, removal of air  
No more gastric juices for baby to shave  
Denied the comfort of oxygen  
Body parts swirl in lieu of disengagement  
Do your best to ignore life  
There's five seconds left till never  
Hanged by angel's hair you severed  
You cannot conceive of forever  
You will be built up to never know  
Stab your whole family tree  
And pretend that you're not here  
Cancel subscription to full head of steam  
Hope asks permission to smoke in the canteen  
Piles of magazines hide the view of excrement  
But is the dwarf in your shoebox really that content?
