I trust in you with all my heart,
My hopes and my dreams, and I lost everything
Now I'm lost inside this empty shell,
A mere reflection of myself

Chorus

Now I'm along inside my head,
Lost everything, thanks to you
I've seen inside of you, I don't know what to do
Lost everything, thanks to you

I gave up my life just to serve you,
Abandon my will just to please you
The only hope, that's guiding me,
Lost everything, thanks to you

Repeat Chorus

Bridge

This emptiness inside, I don't want it no more
This pain I had inside, I gave it to the Lord

Chorus

I'm not along inside my head,
Have everything, thanks to you
I've seen inside of you, now I know what to do
With everything, thanks to you

(Vamp)

All I want is your reflection in my head
