I trust in you with all my heart,  
My hopes and my dreams, and I lost everything  
Now I'm lost inside this empty shell,  
A mere reflection of myself

#### Chorus

Now I'm along inside my head,  
Lost everything, thanks to you  
I've seen inside of you, I don't know what to do  
Lost everything, thanks to you

I gave up my life just to serve you,  
Abandon my will just to please you  
The only hope, that's guiding me,  
Lost everything, thanks to you

#### Repeat Chorus

#### Bridge

This emptiness inside, I don't want it no more  
This pain I had inside, I gave it to the Lord

#### Chorus

I'm not along inside my head,  
Have everything, thanks to you  
I've seen inside of you, now I know what to do  
With everything, thanks to you

#### (Vamp)

All I want is your reflection in my head
