With all the force behind a driving engine
When all your homies focus their opinion
No conformation, found you floating underwater when..

She's so binocular
She's so binocular
Bet you ya knock her up
* repeat *

when all the angels plotted their descention
from the heavens down to the dirt
found the devil lighting fire underwater when..

- chorus -
candy coated superballs
hail upon uncompleted malls
if it amounts to anything at all
i was drunk when i agreed to this

* repeat 1st verse *
* repeat chorus *
