"I Am A Little Explosion"

Visit "[I Am A Little Explosion](#)" on MotoLyrics.com

hello
let's play some music
follow me

let's make some noise with some pots and pans -
repeat 8x

where did you go
where could you be
i better find a way to write back home
i feel the flow of electricity
better call before the fuse is blown

- chorus -
i am a little an, explosion
i am that's all i am explosion

you once were told you once were free
i drew a map my destinations unknown
morticians faint whenever you breathe
i'll see the light before i'm buried and bones

* repeat chorus *
starlight blinding
i will go away
same old rigmarole
i will explode

she's in my shadow
i avoid the street lights
she loves her sweater
clothing is her birthright
she's heavy metal
moshing in the moonlight
she writes me letters
poetry keeps her up nights
* repeat *
