Put a pep in your step when you're moving too slow
You gotta hit that high when the odds are low
Now here's how to get to the next plateau
Be the first one in and the last to go

Ain't no other way about this, way about this
you know it
Put your money where your mouth is, where your mouth
is

Hey now - work it out
Champion - Champion
Don't stop - Keep it up
Champion - Champion
You've got to go for number one
Ain't that what makes a champion

Keep your eyes on the price and forget the cost
'Cause you can't get far when you're slacking off
If you slip then you best get up again
(catch that) Second wind when the first one ends

Ain't no other way about this, way about this
you know it

Put your money where your mouth is, where your mouth
is, is, is

Hey now - work it out
Champion - Champion
Don't stop - Keep it up
Champion - Champion
You've got to go for number one
Ain't that what makes a champion

(C-H-A...M-P-I...Oooo-N! CHAMP-I-ON!)

Put a pep in your step when you're moving too slow!
You gotta hit that high when the odds are low!
Now here's how to get to the next plateau!
Be the first one in and the last to go!

Ain't no other way about this, way about this
you know it
Put your money where your mouth is, where your mouth
is

Hey now - work it out
Don't stop - Keep it up
You've got to go for number one
Ain't that what makes a champion
