Come to me come quietly
Makes my words your own
Honestly be good to me
Vanity be gone

In the dark like a river through my heart
You will be I will see
'til the wheels comes off
'til the roof falls down
'til my legs giveout
Have no doubt

'til the wheels comes off
'til the ship goes out
'til my breath runs out
Have no doubt

We're in this
We're in this together
In this
We're in this together

Show me how
Watch closely now
Keep me safe from harm
Seal my faith respiccate
Hold me in your arms

In the dark like noone made the arc
You will carry me cross the raging sea

'til the wheels comes off
'til the roof falls down
'til my legs giveout
Have no doubt

'til the wheels comes off
'til the ship goes out
'til my breath runs out
Have no doubt

We're in this

We're in this together
In this
We're in this together
In this
We're in this together
In this
We're in this together

Come to me come quietly
Make my words your own
Honestly be good to me
Vanity be gone

In the dark like a river through my heart
You will be (You will be)
