All alone and doing better on my own  
Until the telephone rings, plead your case with broken  
wings  
You give yourself away to everyone and now there's  
nothing left for you  
There will come a day when everything will come right  
back down on you

Come back, I know you feel the same  
Speechless, I don't know what to say to you to pull us  
through

Just when I assume that everything's alright,  
You're gone again, I'm gonna spend my whole life  
wondering why you  
Give yourself away to everyone and now there's  
nothing left for you  
There will come a day when everything will come right  
back down on you

Come back, I know you feel the same  
Speechless, I don't know what to say to you to pull us  
through it  
You're right, I know that I was wrong, but I'm lost  
I've been here for so long but please don't let it slip...

I've got a lot to explain (I just wanted to say that I miss  
you)  
There's so much we left unsaid (disaster comes with  
this distance)  
There's no one left to blame (until the moment that you  
feel us closer)  
But ourselves for feeling this way

Give yourself away to everyone and now there's  
nothing left for you  
Today will be the day that everything will come right  
back down on you

Come back, I know you feel the same  
Speechless, I don't know what to say to you to pull us  
through it

You're right, I know that I was wrong, but I'm lost  
I've been here for so long but please don't let it slip...  
Away
