I said its alright now
Yes it is

Today is the day that I'm getting down on my bendin'
knees
I done cold you're mama and your family
Tell them that you'll spend forever with me

So leave your job pack bags you don't have to live there
no more, no more
Cause I'll be taking care of you that's for sure, that's for
sure
I've been thinking about this day for so long, for so
long baby

Baby breathe baby breathe it's the greatest piece of
advice that you've ever seen
Greatest piece of advice taht you've ever seen
It's the least I can do to show what you mean to me
Money ain't a thing when it comes to the wedding ring
Catch your breath it's ok to breathe baby

Cause there ain't any better way to say that I'm here for
life all I gotta say
Take this ring and have you as my wife yeah yeah
Just wanted you to know you're worth the sacrifice,
sacrifice
Catch your breath baby breathe braces cut baby what
baby yes nothing but the best

Surrounded by your warm love and yes
Just because you're better than all the rest and the rest
baby
Platinum band on your hand we gonna stand
For better or for worse cause I'm loving you so much
that it hurts
Gotta let the world know you are mine and I am yours
baby breathe

Baby breathe baby breathe it's the greatest piece of
advice that you've ever seen

No you ain't ever seen nothing this size
The least I can do is show you what I mean, least I can
do
Are you ready baby here comes your wedding ring
Catch your breath its ok to breathe, its ok babe
Cause there ain't any better way to say that I'm here for
life
So take this ring and have you as my wife yeah yeah
I just wanted you to know you're worth the sacrifice
sacrifice
Catch your breath baby breathe

Girl this is your day
I know you're happy cause its written on your face
You've dreamed it going down this way for eternity a
diamond ring
Can't think nowhere else than with you married
So until death do us part all my love all my heart and
this ring can you feel me

Baby breathe baby breathe it's the greatest piece of
advice you've ever seen
Ain't ever seen nothing this big
The least I can do is show you what you mean to me oh
baby my baby
Are you ready baby here comes your wedding ring
Baby your wedding ring wedding ring yeah yeah
