"Say hey baby"

Visit "[Say hey baby](#)" on MotoLyrics.com

It seems to be that you and me didn't work things out
But honestly I just can't see what our thing is all about
I know you're right I did wrong I left you all alone and I
did that on and on
But I regret that and I confess why'd we end up in such
a mess
Are you gonna stay away too long yeah yeah
I just want to thank you girl with a song thank you

Say hey babe what you doing tonight
Say hey babe we can do it right
Say hey babe you know my body thinks you're mighty
line
But I did you wrong
And I loved you all along
Say hey babe what you doing to me
Say hey babe can't you see
I want you all alone but I did you wrong but I loved you
all along

You promised me that we would be for eternity
Oh baby please say that it's true cause I found a special
friend
I'm sorry girl I made you cry
But I just want to see you happy for a while
So lets go out why not tonight I'd like to show you I can
do it right baby
Are you gonna stay away too long yeah yeah
I just wanna thank you babe thank you
Say hey babe what you doin' tonight
Say hey babe you can do it right what
Say hey babe you know my body thinks you're mighty
line
But I did you wrong I left you all alone

Say hey babe what you doing tonight, doin girl
Say hey babe, can't you see
Say hey babe I want you all alone but I did you wrong
but I loved you all along

You'll always be special to me the girl of my life

Love is for all time but I loved you all along

Say hey babe what you doin' tonight yeah yeah baby
Say hey babe
Say hey babe you know my body thinks you're mighty
line
But I did you wrong I left you all alone

(Repeat Chorus)

Want you to give it to me baby throw it to me baby

Don't forget girl
What you doing tonight
But I did you wrong I left you all alone
What you doin' tonight
Hey babe oh babe
Yeah yeah babe

We can do it right girl
