There's no business like show business like no
business I know
That's so right
Are you feelin' me
Wanna roll like me wanna travel around the world like a
rockstar

Woke up this morning thought I was dreaming
What am I seeing is that me
Up on the TV my friends and family were first to call
me boy you on MTV

And ever since that day my life has changed
I do believe that dreams can come true but its strange
Now its not the same people know my name
With all my heart I gotta say I love this game

There's no business like show business like no
business I know
That's so right
Are you feelin' me
Wanna roll like me wanna travel around the world like a
rockstar

When I was cruising with my homies up in Sydney
Girls be screaming (Selwyn)
I pulled over switched to Nova everybody talking about
this new star

And ever since that day my life has changed
I do believe that dreams can come true but it's strange
Now its not the same people know my name
With all my heart I gotta say I love this game

There's no business like show business like no
business I know
That's so right
Are you feelin' me
Wanna roll like me wanna travel around the world like a
rockstar

There's no business like show business like no
business I know
That's so right
Are you feelin' me
Wanna roll like me wanna travel around the world like a
rockstar

Would I ever leave this game
Would you ever hear me complain
About how things so hard I'm so glad I'm in this game

I'm strictly VIP red carpet at my feet
Yo it's always front rows at the best shows that's how it
goes c'mon
So to my fans I want to say thanks
Cause I can't see myself doing anything else (I love this
job yeah yeah yeah)

There's no business like show business I know
That's so right
Are you feelin' me
Wanna roll like me wanna travel around the world like a
rockstar (x 4)
