Even the tingling breeze  
(Is) holding it's breath for us  
(We) are together in love and whisper to each other  
over and over again  
I was embraced by you while whispering my love (for  
you)  
(You) fell asleep covering (protecting) me who dimly  
became fatigue  
Oh Wouh Wouh Wouh Wouh  
Yes, baby don't you ever leave (me)  
If I say that cliché "I love you" one more time  
Would you stand by me?  
Baby don't you ever leave (me)  
If I say that cliché "I love you" one more time  
Would you stay with me? Oh Oh  
Stay with me (please)?

Couldn't know from the beginning  
As if there is no need to explain  
If the time heals all wounds, we will be strong Oh Oh Oh  
Baby don't you ever leave (me)  
If I say that cliché "I love you" one more time  
Would you stand by me?  
Baby don't you ever leave (me)  
If I say that cliché "I love you" one more time  
Would you stay with me? Oh Oh  
Stay with me (please)?

One day, (you) came to me like a dream  
Put a spell on my lonely heart  
Under the blurry sky together  
This is not the love that I could draw by myself Oh Oh  
Yes, baby don't you ever leave (me)  
If I say that cliché "I love you" one more time  
Would you stand by me?  
Baby don't you ever leave (me)  
If I say that cliché "I love you" one more time  
Would you stay with me? Oh Oh  
Stay with me (please)?
