I like the way you look in my town
I like the way you look in my street
I like the way you look in my house
I like the way you look in my sheets

I like the way you taste with a drink
I like the way you taste with a smile
I like the way you taste when I sing
I like it when it's been a while (x2)

Our night is lit by the city moon
When I see myself reflect on you
I know what I was meant to do

(Chorus)
We're alive, alive (x3)
We're aviation high (repeat)
(Repeat twice)

I find myself countin' the days
I find myself countin' your lashes
I think I memorized your face
But then again who hasn't

The moments when you say what you should
The moments when you say something better
It feels so good I wish you would
Keep on saying never ever (x2)

Our night is lit by the city moon
When I see myself reflect on you
I know what I was meant to do

Chorus (x2)

Don't wake me up when you're leavin'
Cause I wanna keep on dreamin' of this

Chorus (x2)

We're aviation high (x6)
