"God Bless Suicide"

Visit "[God Bless Suicide](#)" on MotoLyrics.com

Did life look better up there?
Your two minutes of no fear
You picked the prettiest dress
To noose around your neck
Costume shops, and high school props will always
know your name
Rainy Wednesdays, screaming teenagers went out with
the pain
Went out with the pain
I know you weren't scared
Then again how dare I
I don't know a thing
When it comes to hangings
Sold out day dreams substitute teachers will always
know your name
Piercing screams, vomit on the street went out with the
pain
Went out with the pain
Couldn't have done it better myself
What do you want to try?
Girl knew how to die
Couldn't have done it better myself
What do you want to try?
God bless suicide
She didn't want our help
Forgive ourselves
She picked the prettiest dress
To noose around her neck
