I wake up in the night and I know that
You're coming back keep me warm in your arms
But I wake up and I am all alone in the dark
Alone in the dark, dark
I see your face calling my name

Reaching out like you believe me
And again I am back to, back to bed (withoutbut with)
you
And I realize that I can't live out this life
All alone just by myself
All alone without you but myself...

I give up all my dreams
Akl my hopes but you keep coming back
In the night when I sleep
You wake me up, and I reach
For your hand hold my hand
Come hold me again, again, again
Love me again call out my name

Day after day
Night after night
Looking out, will you ever come?
Then I looked and there you smiled at me
Well you and I are meant to be
