"Lovely Day"

Visit "[Lovely Day](#)" on MotoLyrics.com

I like it when the night comes
'cause I'm looking forward to another day with you
Never thought that we'd be one
I never want to let go

I wish that time would stop
When I'm with you
Life is so nice
'cause your love keeps me alive

I love the way you love me
The way you stroke my hair
It feels so right
Your kiss and hug lingers
I thank God for having you
'Cause I love you...

We could walk together
Talk about the future
But babe we got to take it slow
'Cause babe, we got to make it grow
