["Some of us in the band hardly ever drink, but when  
we do..."]

Any time ago when I was tollin' on the rocks, add a little  
touch of attitude

Who's that Madam X coming in at three o'clock

Why don't you send her over one too

Next thing I remember, I was crawlin' round the room

She was dancing on the table, blood sure, barkin' at the  
moon

Chorus:

Colorado bulldog - this night has gone to my head

Colorado bulldog - throw a leash around my neck

Turn around and run like hell

Gimme a [grumpy grumbler]

Swingin' from the rafters, I'm losing all control

Playin' a little game of cat and mouse

Above the question, I've been lonely much too long

Last call, "The drinks are on the house"

Next thing I remember, through the pandemonium

It was feeling like a nightmare, the bite right into my  
skin

(chorus)

Come here boy!

(Solo)

My sweet Lolita, or prayin' Manita, left me in the  
number six motel

How was I to know, she'd strip me to the bone and steal  
away my heart as well

Next thing I remember, through the pandemonium

It was feeling like a nightmare, the bite right into my  
skin

(chorus)

Colorado bulldog - this night has gone to my head

Colorado bulldog - throw a leash around my neck

Bottom's up down the heck, it's time to start all over  
again

"Close your little eyes, Yankee!"
