Paul Gilbert, Eric Martin, Billy Sheehan)

Way back in the early days

1946

She walked in with the look o' love

That girl had bedroom eyes

Fire engine lipstick lips

All heads turned ooh with a human desire

It set the world on fire

My kinda woman

Someone's yesteryear dreams

That's my kinda woman

I could tear town the silver screen

A fallen woman femme fatale

Her body screamed heartbreak

Hotel... brains and beauty

Break down the walls, I fall

Down, to my knees,

When I see her picture in the

movie magazines

All heads turned ooh for the lady in red

Bring up the house light and say

My kinda woman  
Bring back those yesteryear dreams  
My kinda woman help me  
Tear down the silver screen  
Picture perfect  
X marks the spot  
There's just no way  
To tell you how hot  
My kinda woman  
If I could go back in time  
To the right place eye to eye  
Magic to burn ooh with a human desire  
She set the world on fire  
My kinda woman  
Someone's yesteryear dreams  
My kinda woman  
I could tear down the silver screen  
My kinda woman  
Bring back those yesteryear dreams  
And that's my kinda woman  
Help me tear down the silver screen
