I wanna know was it love or money
Come clean tell the truth about what you've done
Why did you give your love to another man?
Girl, I believed you were the one
I shoulda known I'd be caught in the middle
No way out - no alibis
I've tried my best but I don't understand
What's so good about the long goodbyes - ya
Never say never
Cuz now we're together
We'll keep holdin on til the end
One look in your eyes and I knew I'd decided
To never say never again... enver again
Gonna win one way or another
No holds barred - it's just a matter of time
Second time around I've got it covered
I'm ready if ya wanna give me one more try - ya
Never say never
Cuz I still remember
How we thought that love never ends
Through good times and bad times

It's always a fine line
I'll never say never again
So far so good
You showed me how love is misunderstood
Whatever it takes
I've made some mistakes
But never again
Never say never
Cuz now we're together
We'll keep holdin on till the end
One look in your eyes and I knew I'd decided
To never say never again - never again
