Good lord, I tried

To push her memory to the back o' my mind

"Mustang Sally" from her head to her toe

My life was in shambles

When she shot down that road

That was then, this is now

If I learned my lesson, I forgot it somehow

Headlights in the driveway,

A knock at the door

I hear that voice, and I know what's in store...

Whoa oh whoa oh

I looked in those angel eyes

Whoa oh whoa oh

The devil was in disguise, yeah

She took me

Down the road to ruin

(Yeah baby) My head was spinnin' round

Don't know what I'm doin'

Back on the road to ruin...

(Listen)

Hip Hips

Sexy legs -

Ain't no surprise I got on my knees and begged

Forked tongue, and pointed tail

If we make it this time, it's a cold day in hell

Whoa oh whoa oh

She said she's be sweet this time yeah

Whoa oh whoa oh

One kiss and it all seemed so right

She took me,

Down the road to ruin

(Yeah baby) My head was spinnin' round

Don't know what I'm doin'

Back on the road to ruin...

Guitar Solo -

Whoa oh whoa oh

She said she's be sweet this time

Whoa oh whoa oh

The devil was in disguise
