When
I was good
I couldn't have been
Any more bad
And when I was right
I couldn't have been
Any more wrong

Everybody knows what's going on
Everybody knows but me (2x)

And when
I tried hard
It couldn't have been more easy to do
And when I was closed
It couldn't have been
Further from you

Everybody knows what's going on
Everybody knows but me (2x)

And I don't understand
Why your head is in your hands

'Cause no-one's ever gonna get in trouble but me
And no-one's ever gonna get in trouble but me

And I don't understand
Why your head is in the sand
'Cause no-one's ever noticed anybody but me
And no-one's ever noticed anybody but me

'Cause when
I was good
I couldn't have been any more bad
And when
I was right
I couldn't have been any more wrong

Everybody knows what's going on
Everybody knows but me (2x)
