Over mountains
That's where my love lives
A long, long ride to sunland
Here, where I did this

Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided

If I could, I might
Send my love on a plane ride
A black cross high in a blue sky
A green cross gliding on a million pines

Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided

Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided

Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided

Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided

Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided
