Verse 1:

Look, I've built a time machine
To take us back to when
Your favorite word was "please"
And mine was always "yes"

Verse 2:

Grown-ups and "no no" words
They spelled over our heads
We'll go back with all we've learned
And translate what they said

Bridge:

We'll fast forward a year or so
We can't wait here we have to know
Will we still be each other's or alone?

Verse 3:

So on the count of three
A year from now tonight
We'll both turn in bed to see
Who could be sleeping on the other side
