Yes I know that we can work through this
Yes I know you know
You've always have
And no you never leave
And I know what you would say to me;
No, you're never alone.
As of right now no you've never left
You've always seen this life
You've always seen these skies
As something greater than
Please let me hold this thought
And help if it starts slipping away
You've always known this time
Is all that matters now
And you've always seen this life
You've always seen these skies
As something greater than
Please let me hold this thought
And help me if it starts slipping away
Something greater than
Don't let me lose this thought
And help me if it starts slipping away
You use the word love
Without saying a single thing
You mean it when you do
I mean it I know you
And I know you know today I,
Today I will too...
You've always said this love
Is the most important thing to you...
You've always seen this love
As the most important thing to me...
