

Sense Field "In Election"

Visit "[In Election](#)" on MotoLyrics.com

Use your super-vision
Your extra-sensory perception
No scientific explanation
We use our lives and our decisions
To save the world

Here's an offer we couldn't refuse
We've got serious work to do
Votes are in and we won it again
To stop the world from coming to an end

You'll know where to start
Piece together the hearts
That were thrown away, broken
Run over and stolen
Will you say the words
Just say the words
Just say the words
Light up the world

We've been chosen by everyone
Instilled in us way before we were born
To bring us all back together again
To stop the world from coming to an end

Light up the world

You'll know where to start
Together with hearts
Thrown away broken
Run over and stolen
Thrown away broken

No one would ask if you couldn't, you know
You've just been reelected again

Hearts will be resurrected again
To stop the world from coming to an end

Prepare the way
