### "Next Door"

Shed light on me  
There were these crazy sounds  
Funny feelings, they took me 'round  
A couple of steps, one deep breath and  
What I found out is that it's the next door down  
Where I was supposed to be  
Where we felt the most free  
Things I never knew about  
It was the next door down  
Nothing to lose, nothing to prove  
How you feel is how you choose  
I swear it was here this whole time  
What I found out is that it's the next door down
