"River"

Visit "[River](#)" on MotoLyrics.com

One day the queen and I went walking down
By the river too
She would show me everything that night
By the river too

(In the river)
My heart
(In the river)
In your hands
(In the river)
I've known all my life

I would play my song for her that night
By the river too
She would smile and start to cry that night
By the river too

(In the river)
My heart
(In the river)
In your hands
(In the river)
I've known all my life
