[Noreaga] Yo what the deal baby
I see ya aight
[Big Pun] Still not a playa but you still a hata
Ha, Pun here where my horns at
Where my horns?
(Horns sounding)
Intro/Bridge: Big Punisher and Noreaga
Fa ye da da ya da da da da
Fa ye da da ya da da da
Chorus: Big Punisher and Noreaga
[Noreaga] Pun you came up
What what, makin it happen
From rappin on the corner of blocks we going platinum
But when we roll, are you still ready to ride
[Big Punisher] Yo I be ready to ride and I be ready to die
(Repeat)
[Big Punisher]
Ay yo my word is born long as I'm alive I'ma put it on
Could'a gone to gee shit, thug nigga till I'm gone
Where to Bronx I'm flippin, five boroughs thoroughly reppin'
Lets unite the city and step to the world as a weapon
Cuz everybody's checkin for Pun second to none
Cuz Latins going platinum was destine to come
The inevitable, heavenly better than whatever you do
We eligible, GS's incredibly credible
For the revenue we gettin you open with lyrical dope
And these breaths that are potent is like an injectional dose
[Big Pun and Noreaga] And it never quits
Take it from TS's top terrorist
Rapper slash hijacker bombin' tracks ever since
I was young, I wasn't always Big Pun
It wasn't always this fun, ay yo I rose from the slums
I had to pay my due, lay a few
But I ain't sayin who, stayin' true to da game
No names, playin' it cool just me and da crew
Holdin' it down long as we round
We gonna keep sockin' it to you like Homey the Clown
Going down like Pac ready to ride or die nigga

La da le la la la la

Chorus (2x)

[Big Punisher]

Ay yo aint nothin' changed I'm still the same

The way you remembered me since the centipede

Harder, big blacker back in the seventies

Try to remember me from my aggressive will

The way I kept it real is more important than any record deal

I used to chill on da block with Cuban and Seis

I'm still do but now it's in the blue convertible

eight...fifty

My true niggaz will always be wit me

The shifty kiss me, tell me they miss me, then try to dis me

Cuz I'm rispy crispy for life sixties the price

Another fifty for the Cuban twisted in ice

Niggaz is shiest but I sike em out

Though they like to doubt I make them all believers once I let the

Tyson out

Cuz I can vouch for only a few only the crew

From the old school I consider loyally true

I'm morally rude from a fool to a scholar

Follow the rules on how to spot a plotta that's cool for a dolla

I wanna holla at my peeps that reppin' the streets

Wrestlin the beast of chest restin' in peace

Blessin' my seeds and watchin' over us

Til I die them souls of mine I'll align the souls of mine

And shine for all of us

Chorus

Bridge [Big Punisher and Noreaga]
