Big Punisher feat. Cuban Link, Big Punisher

Off the Books

and Pun's got a big nine, respect crime but not when it  
reflect mine

The shit I'm on is wrong but it lasts long

Pull a fast one, then Pun'll wake up, with the stash gone

I'm mad strong, and my cream is fast

Smoke the greenest grass, my bitch got the meanest  
ass

and a taste legit, I don't have to waste a whole case of  
Crist'

All it takes is my pretty face and my gangsta wit

Lace the click, cause we all share

It's all fair like love and war, thug galore with the long  
hair

Big Pun, Pun the name that makes the kids run

Like spelling murder reverse it deliver redrum

Come one, come all, if you wanna brawl

I'm the mighty Thor clotheslining motherfuckers like  
Steven Segall

Cause all you gonna get, is your ass kicked or up in a  
casket

That's it (that's it?) That's it

[Cuban Link]

Punisher bash it, at last it's, rappers that really blast  
shit

Cats getting Big Willie niggaz like Billy Bathgate

Up in Jimmy's Cafe, havin caviar

Crackin Cristal at the bar, smokin cigars, livin large

We rob and steal, run with the mob, doin jobs for bills

I'm hard to kill for real nigga guard your grill

I like to chill, spark an L and get high

I'm one hell of a guy, fly pelican fly

[JuJu]

Whattup Duke-o, you know, politickin papi chuco

I'm out here, watching for Jake, getting this loot though

Shoot bro, I got a waterproof suit yo

Swervin like a A.K.A. in Beirut yo

squeezin, out of automatic M3's and  
please, you ain't seen no thugs like these  
I can tell you lots of things that'll make you believe  
In Corona yo it's better to take than to receive

[Psycho Les]

Your career's on life support, and I'ma pull the plug  
and have every thug shootin that Beatnut drug  
in they blood, no escapin this  
Niggaz is goin over their favorite shit (for what?) to be  
tapin this

World premier, loud and clear  
Lye and beer, get the dough, blow up the show  
Dissapear, jump in the Cavalier  
Feelin marvelous, street pharmacist, twist arboles  
For pleasure, bring your territory sever  
Keep my workers under pressure got em sayin "FUCK  
LESTER"

But that's aight Duke-o, my heart nowadays too cold  
Don't give a fuck where you been what you done  
where you go, you know, peep this favorite  
In black shades like a secret, agent  
We're night thieves, roll up on you sleeves  
We light trees, bust these and stack cheese

It's off the hook this year  
Makin mad money off the books this year, ain't nothin  
but crooks in here  
Gettin mad money off the books this year  
(repeat 2X)

Go! (64X)
