And all the things you see will make you fall
It's gonna make you leak beneath the sheets and all we
fall

And I'll believe the sights I see when I believe the fall
It's gonna fall beneath the sheet that I will in my fall
And everything you say I won't believe, I'll say goodbye
He's gonna walk away and not believe a word you say

I'm gonna get you down
I'm gonna get you down

And I'll believe in everything you say
I'm gonna get my way with you, you just believe my
fate
And I'll believe the dream, we dream, we dream, we
dream together
And I'll believe the things you say when you believe my
fate

I'm gonna get you down
I'm gonna get you down

I know the things that you will say
You're gonna get my way 'cause all the things that you
will play
We're gonna play together and the things we are to
flay
We're gonna right down to things, believe me when I
say

I'm gonna get you down
You down

And all the things you see will make you fall
It's gonna make you leak beneath the sheets and all we
fall
I'm gonna get you down
