In your secret dreams, did you ever think you'd be
lonely, as lonely as you
Must feel? You built this gilded walls where you hide
who you've been, I
Keep trying again and again, but you won't let me in.
If no one ever really knows you, no one can ever really
love you, baby let
Me see into your heart.
There's nothing you could ever say or do, that could
ever make me not want
You, just tell me who you are.
Who you are.
If you saw my soul then you'd would know that I'm
guilty and I will be, I
Should just leave. This broken shards of me, they'll
break you in the end,
They'll cut through till your last innocence, you deserve
so much more than
This.
If no one ever really knows you, no one can ever really
love you, baby let
Me see into your heart.
There's nothing you could ever say or do, that could
ever make me not want
You, just tell me who you are.
Who you are.
And girl I'll be your eyes when you need a witness, if
you need to cry
I'll be there to listen, I can be your priest when you need
forgiveness,
Anything you need baby I can give it, I can be your
hope when you heart is
Hopeless, baby we can do this if you try, if you just try.
I can't ask you to try.
If no one ever really knows you, no one can ever really
love you. Baby let
Me see into, into your heart.
There's nothing you could ever say or do, that could
ever make me not want
You, just tell me who you are.
Who you are.
