we watch the war like we watch the sports,
and we check the score, who's winning?
the news reports that we've heard before,
and the story keeps repeating,
convenience store, everything that I can't wait for,
I'll take it anyway..
there's got to be someone there for me, we're all such
needy creatures,
we want a steal or a better deal, with all our favorite
features,
convenience store, everything that I can't wait for,
I'll take it, I'll take it
anyway you dish it up I'm such a sucker for that stuff
and maybe we could fall in love after the drugs wear
off..

I had a dream I could ride the breeze like a kite above
the rooftops,
but now I'm tied to these earthly needs, and I pay the
credit cards off,
anyway you dish it up I'm just a sucker for that stuff
and maybe we could fall in love after the drugs wear
off..
convenience store, everything that I can't wait for,
I'll take it, I'll take it,
convenience store, everything that I can't wait for,
I'll take it, I'll take it anyway...
