Fellow traveller, what you possess is something unique,
Two entities in one. The first is composed from five
new songs,
Designed to bring you one step closer to the realms of
MORPHEUS.
The second is the reincarnation of the: "TEMPLE OF THE
LOST RACE"
Mini Lp, released in 91. Many searching for it but in
vain.
At last this lost page of the band's history is restored.
We resurrected the old songs while keeping the spirit
that was
Behind them. Enjoy the pleasures of the flesh...
