

September When "This Is Our Time"

Visit "[This Is Our Time](#)" on MotoLyrics.com

9 o'clock in the evening
the end of a wonderful day
She lay down on the floor
with her feet spread out
We've been up by the stream
We have seen the movin' tide
Cruisin' down the road
Like the whole world was on our side
It's open and wide
This is our time
There's no talk about love yet
Though somehow I know it will come
It's so easy to get in to
but if you wanna keep it
you have to be strong
We will find the right star
To show us our place on earth
Even if it sounds a bit ... eh?
You know that it works
It means that
This is our time
and time is for
spending right
And this is our day
You make it shine so bright
And these are our dreams
You make me believe
And I believe
and I believe
this is our time
This is our time
and time is for
spending right
And this is our day
You make it shine so bright
And these are our dreams
You make me believe
And I believe
That we can start, we can start,
we can start right here, right here
