Oh yeah...

Change into power,  
We got the power,  
We got the strength within (and)  
We always fight to win!  
Change into power,  
We got the power,  
Together you and me  
Will win the victory!

When I need someone to guide me,  
To stand right beside me,  
I know who to chose,  
And if we stick together,  
For now and forever,  
There's no way to lose!

Oh yeah!

Change into power,  
We got the power,  
We got the strength within (and)  
We always fight to win!  
Change into power,  
We got the power,  
Together you and me  
Will win the victory!

To all the boys and the girls,  
In the digital world,  
From near or far,  
We'll be your ultimate friends,  
And until the end,  
Wherever you are!

Change into power,

We got the power,  
We got the strength within (and)  
We always fight to win!

Change into power,  
We got the power,  
Together you and me  
Will win the victory!

Digimon, we fight to win!  
We fight to win!  
Digimon, we fight to win!  
We fight to win!  
Digimon, we fight to win!  
We fight to win!  
Digimon, we fight to win!

Change into power,  
We got the power,  
We got the strength within (and)  
We always fight to win!  
Change into power,  
We got the power,  
Together you and me  
Will win the victory!

Change into power,  
We got the power,  
We got the strength within (and)  
We always fight to win!  
Change into power,  
We got the power,  
Together you and me  
Will win the victory!
