Screaming
For more justice
Amazonia burns
Can you hear them?

I'll fight
To save another day
So join us
And we'll make them leave this land

Threatening
To kill how we feel
We stop them
It'll be worth dying for

When you go down
When you go down, motherfucker
When you go down
You go down fighting

When you go down
When you go down, motherfucker
When you go down
You go down fighting, motherfucker

When you go down
When you go down, motherfucker
When you go down
You go down fighting

When you go down
When you go down, motherfucker
When you go down
You go down fighting, [Incomprehensible]

Why?
Why?
Why?
