There is a way out,  
there is a way out

It took along time to get where we are  
It wasn't easy but it never is  
Big steps keep moving on  
I have my own two feet don't need you to walk for me

There is a way out,  
there is a way out

There were differences between you and me  
There are things that I am just starting to see  
Powerless! What does that mean?  
Who has contorol over everything?

I had learn, salvation  
To find my place in the world we live  
I had to have, compassion  
To understand that I have to give

There is a way out,  
there is a way out  
Salvation!!
