You think you rule all
You made it all wrong
Creating more frauds
Your mask will soon fall
I will be free from
this grave where you lie
I'm out with my life
Revolting my mind

False - A devil's vice
False life - The circle lows
False - No judas cry
False life - Crushing my mind

There is no regret - There is no repent

Abusing power
A freezing cloud blurs
Judeca it's your home
You pay at dis's terms
No one will mourn you
No cry will be heard
You'll never see clear
The pain is so near

False - A devil's vice
False life - The circle lows
False - No judas cry
False life - Crushing my mind

There is no regret - There is no repent
I will not regret - I will not resent - Your false molebolge
- End of Hell

You hear the screams of lucifer
You feel the freeze, the fear, the wings
You hear the cassius' regrets
You feel your brain being crushed by teeth

Moleboug - End of hell
